The remote controls supplied with the ARCAM Radia A5, A15, A25 amplifiers, the CD5 CD player and ST5 streamer are supplied to work with the products with which they are supplied and for the most common use cases. To help our customers who may have more specialised requirements the function of the remotes for all these products can be configured to allow different system codes or the ability to control some functions of other products.

# ARCAM

## A5, A15, A25

The remote supplied with the A5, A15 and A25 Radia amplifiers can be configured to:

- Use system code 19, instead of code 16 to allow independent control of two ARCAM amplifiers or AVRs.
- Control the playback function of an ARCAM CD player
- Control the playback function of an ARCAM ST5

### Alternative function selection

- Press and hold the POWER and OK key for 3 seconds. LED on the remote will now stay lit.
  - The navigation keypad is now used to select an alternative function for the remote.
- 
- UP - Sets the system code of all keys to code 19.  
LED will flash TWICE.
  - RIGHT - Sets the transport keys (PLAY/PAUSE, SKIP FWD, SKIP BACK) to control an ARCAM CD player. All other keys set to system code 16.  
LED will flash THREE times.
  - DOWN - Sets the transport keys (PLAY/PAUSE, SKIP FWD, SKIP BACK) to control an ARCAM ST5. All other keys set to system code 16.  
LED will flash FOUR times.
  - LEFT – Restores the remote to default settings. All keys set to system code 16.  
LED will flash ONCE.
