The ARCAM CD5 is for those intimate listening experiences with your favourite music on Compact Disc.

ARCAM has been a pioneer of Compact Disc playback since the development and introduction of the Delta 70 CD player in 1986, our own ground up design. The experience of producing high quality digital audio products since then has been poured into the ARCAM CD5. New components and materials have been painstakingly analysed and reviewed to ensure brilliant sound quality.

Hi-res audio playback capability is included for FLAC and WAV encoded CD and USB files.

Features

- CD, CD-R, CD-RW playback
- ESS ES9018 DAC
- Hi-res audio
- Aluminium front, top, sides and rear panels
- USB mass storage playback
- Compact remote control
- Plastic free packaging
