

A39 Software Release Notes

To update:

Unzip the files & put onto a memory stick (so they are only files on the stick)

Turn on the A39 & wait until fully started

Insert the stick into the USB socket on the rear of the A39

Simultaneously press BALANCE, CD & AV on the front panel

Wait for the USB stick to be searched

Wait around 15 seconds, do NOT power off during this time, the A39 will update once complete

Once complete, turn the A39 off, remove the USB stick & turn the A39 on again

To check your software version, on the front panel (not remote) press & hold PVR, CD & MUTE simultaneously, the VFD will show:

Version 075

Version 075

Fix list:

Pre-outs muted when headphones inserted.

Version 074

Fix list:

Discrete on (16/123) command fixed.

Version 073

Fix list:

Fixes balance variation at lower/higher volume levels
