

CD37

CD Player

Those seeking the ultimate in musical replay will find the CD37 a startling player. Breathtaking levels of realism are available from either CD or SACD discs using ultra high precision clocking and digital to audio conversion. We are confident that the CD37 is Arcam's best ever CD player and its performance has already set new reference standards at its price level.

“This player serves up a musical treat”

HiFi World

FMJ

Upsampling circuitry gets the very best out of the CDs and SACDs.

Reference level disc player

CD37 Rear panel showing comprehensive connections

- 1 The CD37 remote offers system control of matching Arcam products.
- 2 Digital outputs all for future upgrading, e.g. with a D33 DAC.
- 3 Dual line outputs allow for connection to multi-room systems.

Digital to Analogue conversion

Delta-Sigma DAC with DSD (Direct Stream Digital) filtering

Laser pick-up
3 beam

Laser wavelength
780nm

Numerical aperture
0.45

Signal to noise ratio
109dB (20Hz-20kHz bandwidth)

Harmonic distortion (1kHz)
0.002%

Frequency response
(±0.5dB)
0.3Hz-20kHz

Output level (0dB)
2.3Vrms

Output impedance
47Ω

Minimum recommended load
5kΩ

Dimensions
W433 x D355 x H85mm

Weight
6.2kg nett/8.0kg packed

Power consumption
32VA maximum

Digital output connection
75Ω co-axial optical TOSLINK

Supplied accessories
Mains lead
CR90 remote control
4 x AAA batteries

NOTE: All specification values are typical unless otherwise stated

PAIR WITH: A38 INTEGRATED AMPLIFIER
